Abstract

This project focuses on developing an interactive website for an English tutor, aimed at enhancing the accessibility and delivery of educational resources. It provides features such as course enrollment, downloadable materials, and integrated YouTube links. The site also enables effective communication between the tutor and students. Built using HTML, CSS, and JavaScript, the website ensures an engaging and user-friendly interface.

Acknowledgment

I extend my sincere gratitude to our lecturer for her invaluable guidance and support throughout this project. I am also grateful to the Department of Information Technology, Advanced Technological Institute, Kegalle, for providing the resources and encouragement necessary to complete this project successfully.

CHAPTER 1

Introduction

The project "Interactive Website for an English Tutor" aims to simplify learning by providing students with a centralized platform for accessing resources and enrolling in courses. This website bridges the gap between students and educators by offering a seamless user experience.

Project background

In traditional tutoring setups, students often face challenges in accessing materials and staying updated with course schedules. This project addresses these issues by introducing a digital platform where resources, schedules, and communications are consolidated, ensuring efficient learning.

Aims and objectives

- **Aims:** To create an accessible and interactive platform for English tutoring.
- **Objectives:**
    - Develop pages such as Index, Courses, About Us, and Contact Us.
    - Enable course enrollment through an application form.
    - Provide downloadable materials and YouTube links for learning.
    - Facilitate contact with the tutor via social media links.

CHAPTER 2

2.1 Design Details/Templates

The website consists of the following key components:

- **Index Page:** Introduces the tutor and highlights key features of the platform.
- **Course Page:** Displays available courses as cards.
- **Exam Papers Page:** Provides the past papers and model papers.
- **About Us Page:** Provides information about the tutor and their teaching methodologies.
- **Contact Us Page:** Features social media links for direct communication.

Design technologies used:

- **HTML:** Structure of the website.
- **CSS:** Styling and layout.
- **JavaScript:** Interactive features.

2.2 Problems/Test Results

- **Challenges Faced:**
  - Ensuring responsiveness across devices.
  - Optimizing navigation between sections.
- **Testing:**
  - Cross-browser compatibility was tested using Chrome and Edge.
  - Responsiveness was validated for mobile, tablet, and desktop devices.

CHAPTER 3 (Conclusion)

3.1 Problems

• Overused stock images.

• Lack of quality images.

3.2 Future Proposals

- Integrate a student feedback system.
- Add advanced features such as progress tracking and live sessions.
- Implement a secure login system for students and tutors.
